This Catalogue presents an outline of the contents and nature of the principal Central Office publications. The general publications (Official Year Book, Pocket Compendium, etc.) are described first (pages 3-4); then follow the annual bulletins or reports on demography, finance, production, overseas trade, transport and communication, and labour, employment and prices, together with certain more important mimeographed bulletins whose content is not treated so comprehensively elsewhere (pages 10-11); and finally the population, retail establishments, and motor vehicle census publications. A I. CATALOGUE OF PRINCIPAL PUBLICATIONS ISSUED BY THE CENTRAL OFFICE OF THE COMMONWEALTH BUREAU OF CENSUS AND STATISTICS

GENERAL PUBLICATIONS

OFFICIAL YEAR BOOK OF THE COMMONWEALTH OF AUSTRALIA (1.1)

The principal general reference work of the Bureau's Central Office. Provides a comprehensive and fairly detailed statistical review of all aspects of the economy and social conditions of Australia for which official statistics are available. Statistical material, illustrated by graphs, maps and photographs, is presented in chapters dealing specifically with: the Territories of Australia; population; vital statistics; housing and building; employment, labour, wages and prices; overseas transactions; transport, communication and travel; welfare services; justice; health; education; national accounts; private finance; public finance; local government; rural industry; water supply; forestry; fisheries; mineral industry; manufacturing; electricity. Contains also descriptive matter dealing with Australia's history, geography, physiography, climate and meteorology, defence services, and international relations. Among items included in the current issue (No. 54, 1968) are the complete text of the Constitution of the Commonwealth, a diary of principal economic events for the year 1967-68, a chronological table of chief events, 1955 to 1968, and a statistical summary of selected items and years over the period 1901 to 1968—the statistical summary in this issue having been expanded in both subject matter and range of years. Each issue includes one or more 'special articles', each of which deals at some length with a particular subject relevant to a part of the contents of the volume—the current issue contains an article dealing with droughts in Australia, a large map of Australia showing density of population and an article on the weather and climate of Papua and New Guinea (which will be retained). This issue of the Year Book is published for the first time in International size B5, and the size of type generally used throughout has been increased.

POCKET COMPENDIUM OF AUSTRALIAN STATISTICS (1.2)

A *pocket* year book, emulating the Year Book in comprehensiveness without the detail. Concentrates on 'basic' statistics, its aim being to provide something in all statistical fields, so that the inquirer can obtain an idea of the order of magnitude or relative importance of a subject. Contains the names of current holders of vice-regal positions, members of the Commonwealth Parliament, Commonwealth and State Ministries, the Commonwealth judiciary, diplomatic representatives, and principal Commonwealth officials; a chronological table of events of historical importance from 1770; and lists of Bureau publications, postal rates and public holidays.

QUARTERLY SUMMARY OF AUSTRALIAN STATISTICS (1.3)

A comprehensive quarterly publication intended primarily for the issue of annual and other cumulative series, it contains a wide range of economic and social statistics, differing in respect of the latter from the *Monthly Review of Business Statistics*, which is restricted mainly to economic indicators. It is the earliest general publication in which a number of series appear, and is therefore a handy reference for the latest statistics available in a wide variety of fields.

MONTHLY REVIEW OF BUSINESS STATISTICS (1.4)

Contains a comprehensive range of monthly and quarterly economic series, including seasonally adjusted series, covering employment, internal and overseas trade, prices and wages, building and production, transport and communication, national accounts, balance of payments, and finance, showing figures for up to ten years and twenty-six months.

DIGEST OF CURRENT ECONOMIC STATISTICS (1.5)

Contains eighty-five selected monthly or quarterly economic indicators, each series or group being also represented graphically. Provides an up-to-date review of the most recent statistics available, and generally appears during the last week of each month with figures up to the previous month. Contains a selection of seasonally adjusted series with graphs.

SEASONALLY ADJUSTED INDICATORS (1.10)

Contains original and seasonally adjusted data in tabular and graphical form for selected series of statistical indicators of Australian economic activity. The seasonal adjustment of these series is intended to serve as an aid in statistical interpretation and analysis. Later figures in the series, and other series being seasonally adjusted, are published in the *Monthly Review of Business Statistics*, the *Digest of Current Economic Statistics*, and in other monthly and quarterly publications of the Bureau. The purposes of the publication are to provide a comprehensive long-term series and to give a detailed description of the methods used in compiling them. The bulletin is issued annually, following annual re-analyses of the series.

NORTHERN TERRITORY STATISTICAL SUMMARY (1.6)

Annual publication in which are assembled all available official statistics for the Northern Territory. Contains also a chronological table of events, a list of representatives and officials and a list of ordinances and regulations promulgated during latest year.

AUSTRALIAN CAPITAL TERRITORY STATISTICAL SUMMARY (1.7)

ANNUAL BULLETINS OR REPORTS**DEMOGRAPHY (4.9)**

Information is shown for each sex; for each State and Territory; and for varying runs of years; but not all information is presented in this detail—in more complex tables cross-classification is limited to Australia as a whole for the most recent year.* Contains a Statistical Summary with a series of long-term tables extending back to 1901, also several graphs on major features.

CAUSES OF DEATH (4.7)

Annual detailed bulletin showing causes of death classified according to the International Classification of Diseases of the World Health Organization. Information by the detailed list of the ICD is shown by sex and age-group and for a run of four years. An abbreviated list of the ICD is used to show information by sex, age-group, State or Territory of registration, month of registration, and a fifteen-year run of numbers and rates. Cross-classification for certain important causes are given for Australia (e.g. age-group, birthplace and period of residence). Separate sections are devoted to infant mortality and age-specific death rates. This bulletin rather than *Demography* should be referred to for information on causes, although *Demography* contains an abbreviated list showing numbers, age groups and rates.

* This is common practice in Bulletins.

A III. SUBJECT INDEX TO PUBLICATIONS OF THE CENTRAL OFFICE OF THE COMMISSION FOR THE PROTECTION OF CHILDREN AND YOUTH

The index is designed to assist in the location of publications of the Central Office of the Commission for the Protection of Children and Youth. It is arranged in alphabetical order of the subject matter of the publications. The index is divided into two parts: a main index and a supplementary index.

A III. CENTRAL OFFICE

SUBJECT INDEX TO PUBLICATIONS

The Central Office of the Commission for the Protection of Children and Youth is the central body for the collection, processing and dissemination of information on the situation of children and youth in the Federal Republic of Germany. It is responsible for the preparation of reports, studies and other publications on the situation of children and youth in the Federal Republic of Germany.

Detailed references to the DAI Central Publications are given in the following list. However, subject index will be found in the publications and in the Central Office of the Commission for the Protection of Children and Youth. The following list of publications is arranged in alphabetical order of the subject matter of the publications.

When using the index reference to a subject is given in the following list. The following list of publications is arranged in alphabetical order of the subject matter of the publications. A III. SUBJECT INDEX TO PUBLICATIONS OF THE CENTRAL OFFICE OF THE COMMONWEALTH BUREAU OF CENSUS AND STATISTICS

This index is designed to show in which Central Office publications information on various subjects is to be found, and to serve as an aid in the selection and ordering of the appropriate publication required. *The index is not intended as a comprehensive index of commodities or items, and items of production and of overseas trade, for example, are therefore largely omitted.* The Table of Contents or Index to the relevant publication itself provides this further reference.

Because of the comprehensive range of statistics contained in the *Official Year Book of the Commonwealth of Australia* and in the *Pocket Compendium of Australian Statistics*, no references are given to them in this index, since they would have to be included for virtually every item therein. Each of these publications contains a detailed index, and the former should be regarded as the principal general statistical reference work produced by the Central Office of this Bureau. No references are given to the Northern Territory and the Australian Capital Territory Statistical Summaries, which contain a comprehensive range of statistics for those Territories.

Detailed references to the 1961 Census publications have been excluded from this issue. However subjects dealt with in these publications and in the *Statistician's Report* on the 1961 Census, which gives a comprehensive analysis of the statistics presented in more detail in other Census publications, are indicated in the following index by an asterisk *. See page 15 for a summarised list of 1961 Census publications.

Where more than one reference to a subject is given, the chief reference, wherever it has been possible to determine it, is indicated by bold type. Two or more references to a subject so indicated signify major, and approximately equal, importance. A number in brackets following 12.12 or 12.16 refers to the particular issue of the Manufacturing Industries Bulletin or the Production Summary respectively dealing with the subject indexed.
